Remarks

Applicant has amended Claims 1, 50, 53, 57, and 58 to clarify a one-way wireless paging unit as being without RF transmission capabilities. Although Applicant believes the term one-way paging unit is sufficient to distinguish over two-way paging units, amendments have been made to further distinguish the claimed paging units for the Examiner. Arguments to the rejected claims set forth in the Amendment filed March 3, 2003 are incorporated herein.

A call from the Examiner to discuss this Draft-Amendment is requested.

Respectfully submitted,

Dated: November ____, 2003
